

# Heads of Noosa Brewing Co

*Proudly Australian, independent and family owned.*

Heads of Noosa Brewing Co. is an Australian independently owned craft brewery. With a passion for lagers and a focus on quality, we strive to produce truly enjoyable beers for everyone. After nearly a decade in the making, Heads of Noosa opened its doors in early 2019. Founded by two brothers, Lance and Craig, the company has, and always will have, a sense of family amongst the entire team.

Our beers are inspired by the nearby rocky headlands of Noosa Heads. East facing, the Heads stand upright to the full force of Mother Nature and the unbridled swell of the magnificent Pacific Ocean. It's their very nature to craft these swells into one of Australia's finest breaks. Our nature and our passion is to craft raw natural ingredients into some of Australia's finest beers.
